

Paragraph A Week

Due Friday

This week you are asked to complete a writing assignment. You are expected to write at least 7 sentences pertaining to the topic. (You may write more to get a better grade.)

Please give your paragraph a title. Put your heading in the upper right hand corner.

Remember to:

- ❑ use complete sentences,
- ❑ correct capitalization,
- ❑ correct punctuation,
- ❑ topic and concluding sentences,
- ❑ sentences with supporting detail,
- ❑ and accurate spelling.

Topic: Chronology of Pollinator Garden Care

For a Paragraph A Week this week, you need to describe your daily routine in taking care of your pollinator garden. Think carefully about what you must do first, next, and last. Choose your descriptive words carefully; use the ones that best fit your garden's plants. Use your science vocabulary and your list of "sequencing" words. Please don't use the tired and dull words like "then" and "next".

Write a sloppy copy. Revise and edit carefully prior to writing your final copy. Remember to give your paragraph(s?) a title. **Turn in all copies – rough draft to final copy - of this assignment.**
